This section lets you subscribe for eGovernment Services offered on mygov.mt by the various eGovernment service Providers. Once you have subscribed for an e-Government service, your application needs to be approved by the respective Service Provider before it can be made available to you.

In order to subscribe for an eGovernment Service: (1) select the **Provider** of the required eGovernment Service from the **Select an e-Government Service Provider** drop-down list to view a list of eGovernment Services available for subscription and (2) click 'Subscribe' on the service you would like to apply for.

Each eGovernment Service has a required **Access Level** that is indicated in the **Security Level** column. The access level shows the level of security required to subscribe and access the service. If you do not have the access level required to subscribe for an eGovernment Service the link under the **Action** column will show you the required upgrade path.

Within this section, you can view and manage the status of the e-Government services, which you have applied for. If you have not yet subscribed to any e-Government service, you can do so by using the link [Subscribe to an e-Government Service](#) in the navigation bar under **Manage My Services** or under one of your other roles.

Some e-Government services require authorization before they are assigned to your profile, so they will not appear in the navigation bar until they have been approved by the Service Provider. This process is required since some e-Government services are targeted to specific professions and therefore the Service Provider needs to ensure that the individual applying is eligible for such service.
